1 MESSAGE FROM MANAGING DIRECTOR

Dear Stakeholders,

Lotus Green Team was originally formed by a group of like-minded friends. Over the years, it has evolved into a strong, professional engineering company that has proudly contributed to many iconic projects in Cambodia.

Our **people**, our **culture**, and our **team spirit** have always made the difference. Today, amidst global economic turbulence and increasing market volatility including the impact of rising tariffs we continue to adapt and push forward. These challenges are driving us to reimagine the way we work and strengthen our resilience.

We are actively refining our working model to enhance productivity, efficiency, and overall value to our clients and partners. Embracing digitalization, streamlining operations, and optimizing manpower utilization are key priorities in this transformation. Agility is no longer a choice it is a necessity.

Our journey is one of continuous improvement, driven by our commitment to **“Engineering for a Better Cambodia”** With a strong learning culture, unity among our teams, and unwavering dedication from our people and leadership, Lotus Green Team is well positioned to meet the challenges ahead and seize new opportunities for growth.

On behalf of Lotus Green Team, I extend our heartfelt thanks to all our suppliers, construction partners, and valued customers for your continued trust and support. We look forward to building even greater successes together in the years to come.

Warm Regards,

Hong Leang Y
Managing Director

2 COMPANY OVERVIEW

ABOUT LOTUS GREEN TEAM

Lotus Green Team is a Phnom Penh based Engineering and Contracting Firm **specializing in the delivery of high-quality Mechanical Ventilation and Air conditioning, Electrical, and Plumbing (MEP) solutions for Construction sector in Cambodia.** We are dedicated to providing advanced, integrated systems, each designed and executed, to meet rigorous international standards.

Since our establishment, we have served a diverse portfolio of clients across the private sectors, government institutions, and non-governmental organizations. Our end-to-end service model includes design, engineering, execution, and comprehensive maintenance packages, offering clients a complete and reliable project solution. Our strength lies in our people.

We bring together **skilled and dedicated workforce, led by seasoned engineers with extensive experience** in both planning and site execution. This synergy of technical expertise, quality workmanship, and project discipline ensures that every system we deliver is efficient, durable, and performance-driven.

Lotus Green Team is **committed to helping clients maximize value through intelligent resource management, energy efficient designs, and dependable service delivery.** Our approach is grounded in professionalism, continuous improvement, and a strong adherence to quality, safety, and sustainability principles. These values define our identity and position us as a trusted partner in Cambodia's evolving construction landscape.

MEANING OF THE LOTUS

The **LOTUS** is a revered aquatic plant across Asia, known for its ability to thrive in muddy waters and emerge each day in pristine beauty. Rooted deep in the mud, the **LOTUS** submerges every night and rises again with the sunrise untouched, pure, and radiant. It grows above its murky surroundings, offering shade and symbolizing resilience, renewal, and quiet strength. Across cultures, the lotus is a symbol of success, honor, admiration, and prosperity.

Inspired by these values, Lotus Green Team was officially established in January 2012. Like the **LOTUS**, **we have grown steadily from humble beginnings rising through challenges and flourishing in a competitive environment.** Over the years, we have successfully delivered numerous projects in Phnom Penh, Siem Reap, and throughout Cambodia, earning trust through our professionalism and dedication.

As we look to the future, Lotus Green Team remains committed to growing from strength to strength refining our quality, expanding our capabilities, and staying true to the spirit of the lotus.

“““ WE BRING TOGETHER TALENTED MAN-POWER

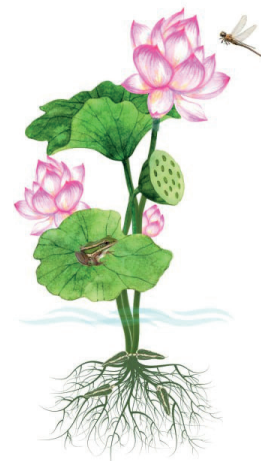

LOTUS VISION

To become the leading engineering contractor and the main construction distributor in the region through core competitive advantages and pioneering technology investment.

LOTUS MISSION

Lotus Green Team provides qualified and competent teams to deliver unique and effective solutions to and beyond our customers' expectation.

LOTUS VALUES

HUMANITY

- We **support** one another to **achieve our common goals**.
- We **share** and **care** to be more productive.
- We **do the right thing as human beings**, guided by moral and ethical principles, for the sake of peace and harmony.

KAIZEN

- We **plan, do, check,** and pursue **continuous improvement**.
- We **take ownership** and **deliver quality work**.
- We habitually develop **innovative ideas** for better results.

RELIABILITY

- We dare to **think**, dare to **speak**, dare to do, dare to **accept**.
- We provide **quality** and efficient **solutions**.
- We live with **integrity, honor** and **dignity**.

Our Greatest Asset
Our personnel are the cornerstone to our smooth and successful operation.

Technical and Design

To develop conceptual ideas into engineering design drawings, and then develop into project costing.

Operation

To develop design drawings into reality and to provide engineering support to our clients for the smooth operation.

Finance And Accounting

To manage cash flow and treasury functions.

Human Resource and Administrative

To facilitate work flow in the offices and sites.

Procurement

To ensure timely procurement and delivery of quality goods and services, and manage logistics at competitive prices.

Coordination

To ensures the successful integration of MEP systems while maintaining high standards of quality and performance.

TEAM
COMPOSITION

Our team composition harnesses diverse skills and perspectives, fostering collaboration that drives innovation and success.

OUR MANAGEMENT TEAM

Hong Leang Y

Managing Director

Leang Y graduated from the School of Management at the Asian Institute of Technology (AIT) in 2007. He previously earned a degree in Mechanical Engineering from the Institute of Technology of Cambodia (Techno) in 2003. He holds two professional titles from the Board of Engineers Cambodia (BEC): ASEAN Engineer and Professional Engineer.

After graduating from AIT, Leang Y began his career as General Manager at a trading company. This role allowed him to apply his MBA knowledge from the start-up phase through to building a profitable firm. In 2012, he went on to establish Lotus Green Team.

He received the Award of Excellence from the ASEAN-China Outstanding Young Entrepreneur in 2015. He was also honored with the ASEAN Business Award of Excellence in 2016, 2017, and 2018. These awards recognized his achievements in employment and business growth.

Heng Sruoy

Project Coordination Director

Sruoy graduated with a Degree in Electrical Engineering from the Institute of Technology of Cambodia. His academic training equipped him with strong technical and analytical skills. This foundation has supported his successful leadership in engineering coordination.

He has extensive experience managing construction works at Phnom Penh and Siem Reap International Airports. He has also overseen several Clean Room projects in both Cambodia and Laos. His experience spans across complex, high-standard engineering environments.

Sruoy has made many positive contributions to the development of Lotus Green Team. He is currently responsible for managing the Shop Drawing, QAQC, and T&C Teams. His coordination ensures high-quality delivery and compliance across all technical functions.

Han Danit

Technical Director

Danit holds a Bachelor Degree in Mechanical Engineering from the Institute of Technology of Cambodia. He also earned a Training Degree from IUT (Instituts Universitaires de Technologie) at the University of Evry Val d'Essonne in France. His academic path blends local and international engineering education.

Danit joined Lotus Green Team in 2012. He is responsible for managing the Mechanical Design Team to ensure maximum customer satisfaction. He previously taught for 2 years as a Mechanical Lecturer.

Danit has over 23 years of experience in HVAC system design. His design leadership brings precision and innovation to each project. His work continues to drive technical quality and client value.

Seng Sreyvoleak

Finance Manager

Sreyvoleak graduated with a Bachelor's Degree in Business Administration, majoring in Accounting. She is currently pursuing her professional accounting qualification with ACCA. Her academic and professional studies have enhanced her expertise in financial management and reporting.

She has over 20 years of experience in finance and accounting across various industries. Prior to joining Lotus Green Team in 2015, she worked in trading, insurance, service, and NGO sectors. Her broad background allows her to adapt financial strategies to diverse business models.

Sreyvoleak plays a key role in cash flow management, financial reporting, budgeting, and cost analysis. She also oversees tax compliance, auditing, and the development of standard accounting procedures. Her work significantly contributes to improving overall financial operations and efficiency.

Yort Malen

Human Resource Manager

Malen graduated with a Bachelor's Degree in Business Administration and Management, General. Her academic background laid the groundwork for a strong career in human resources. It supports her understanding of organizational behavior and workforce development.

She has over 15 years of experience in human resources management. Before joining Lotus Green Team, she held various leadership roles in HR. Her career spans across industries, contributing to both strategic HR planning and operational excellence.

Malen officially joined Lotus Green Team in 2022 as Human Resource Manager. She develops effective HR strategies aligned with organizational goals and focused on enhancing workforce performance. She also promotes a positive workplace culture and ensures labor law compliance.

Mean Vatha

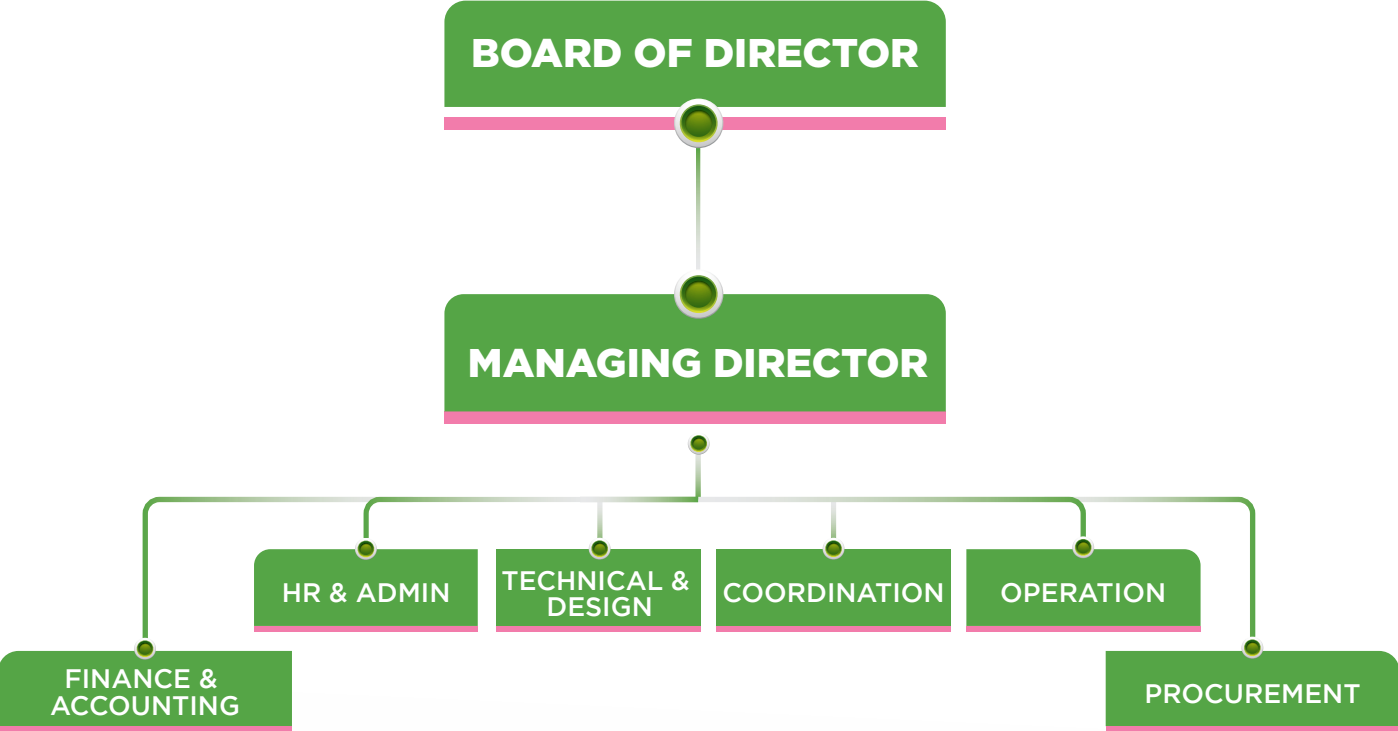

Operations Manager

Mr. MEAN Vatha is an engineering and operations professional with over 14 years of experience across Cambodia's construction, infrastructure, and industrial sectors. He holds degrees in Electricity and Electronics from Norton University and French Language Teaching from IFL.

He joined Lotus Green Team in 2013, progressing from Site and QA/QC Supervisor to Site Manager and Project Manager on major developments nationwide.

In 2026, he was appointed Operations Manager, overseeing company operations, project performance, and strategic growth. Combining technical expertise with strong leadership, Mr. MEAN Vatha is dedicated to delivering excellence in quality, safety, and client satisfaction while driving sustainable business success.

ORGANIZATIONAL CHART

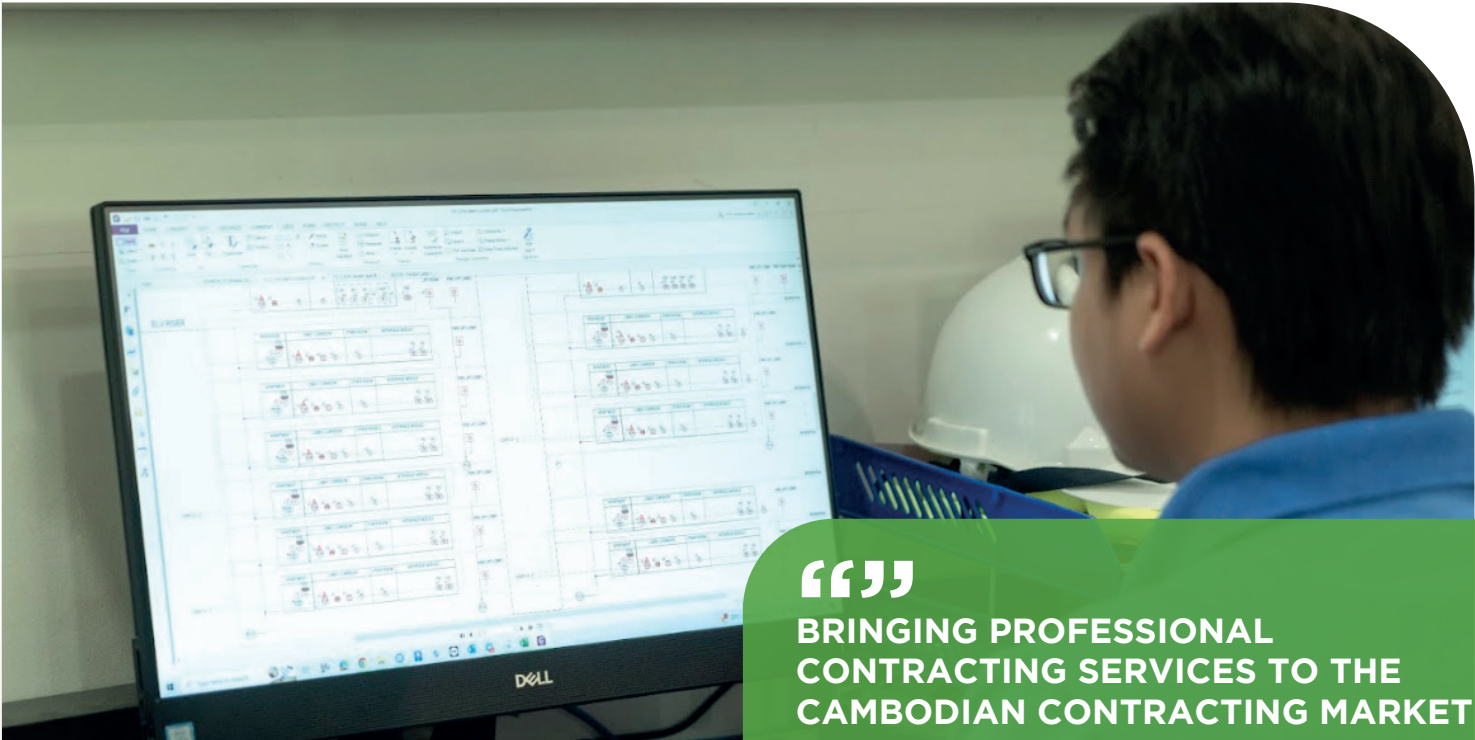

4 OUR SERVICES

Lotus Green Team offers an integrated suite of multi-disciplinary engineering services tailored to meet the demands of both new construction and major renovation projects.

Our team of experienced and professional engineers is committed to delivering solutions that balance performance, cost-efficiency, and sustainability.

We understand the importance of minimizing long-term operating expenses for our clients. By applying innovative design principles and optimizing equipment installation, our "Green" team ensures energy-efficient performance that maximizes energy savings and contributes positively to environmental sustainability.

“““
BRINGING PROFESSIONAL CONTRACTING SERVICES TO THE CAMBODIAN CONTRACTING MARKET

WE WILL WORK WITH YOU

From the outset of your project, Lotus Green Team ensures that all essential infrastructure requirements—air-conditioning, electrical, and plumbing—are thoroughly planned and implemented.

We are committed to delivering systems that are not only reliable and efficient from day one, but also designed for long-term durability and ease of maintenance, ensuring continued performance well into the future.

MECHANICAL VENTILATION AND AIR CONDITIONING SYSTEMS

With fluctuating temperatures and high humidity, selecting a cost-effective and efficient mechanical ventilation and air conditioning (MVAC) system is essential. At Lotus Green Team, we design MVAC solutions that provide year-round indoor comfort while significantly reducing energy consumption and long-term operating costs.

Our systems are tailored to meet the unique needs of each project, ensuring optimal performance, reliability, and environmental sustainability.

ELECTRICAL SYSTEMS

In Cambodia’s evolving industrial landscape, ensuring a safe, reliable, and efficient energy supply is increasingly challenging. Unstable power infrastructure can lead to equipment failure, operational downtime, and rising overhead costs.

“OUR EXPERIENCED ENGINEERS, TOGETHER WITH THE FINELY TUNED QUALITY CONTROL PROCESSES, GIVE YOU THE MAXIMUM UP-TIME AND PEACE OF MIND OPERATIONS.

At Lotus Green Team, we address these challenges through the design and implementation of robust electrical systems that prioritize safety, reliability, and long-term efficiency. Our solutions are tailored to minimize risks and ensure seamless, uninterrupted operations for every project.

- Electrical Power Generators
- Transformers
- Electrical Power Distribution Systems
- Lighting and Socket Installation
- Earthing System and Lightning Protection
- Security Systems
(Fire Detection, Access Control, CCTV)
- Public Address Systems
(Sound Systems)
- Communication and Network
(Telephone, Intercom, Data)

PLUMBING AND FIRE FIGHTING SYSTEMS

Reliable water supply and effective drainage are essential to any property's infrastructure. Cambodia's extreme wet and dry seasons demand carefully planned, efficiently implemented, and regularly maintained water systems to prevent costly breakdowns and ensure long-term functionality.

**CONTACT LOTUS GREEN TEAM TO LEARN
HOW WE CAN HELP YOU IMPLEMENT AND
MAINTAIN A PLUMBING SYSTEM THAT MEETS
YOUR DEMANDS.**

At Lotus Green Team, we specialize in professional design, engineering, plumbing, and maintenance solutions tailored to meet your current water management needs while preparing for future demands. Our expertise guarantees sustainable, high-performance systems that support both residential and commercial properties—no matter the season.

Some of the PLUMBING SERVICES we can provide you with:

Water Supply System
(Hot and Cold Water Supply)

Soil and Waste Water System
(Soil, Waste, and Air-Vent)

Wastewater Treatment System

Drainage System

Pump System

Fire Fighting System

Water Treatment System

Transfer Pumps
(Cold Water System)

Fire Fighting System

MAINTENANCE SERVICES

Comprehensive Mechanical, Electrical, and Plumbing Services at Lotus Green Team, our fully equipped and highly trained staff delivers a complete range of mechanical, electrical, and plumbing solutions, from installation to expert repairs—tailored for all types of buildings.

Some of the MAINTENANCE SERVICES we are providing to our customers:

With a team of skilled and experienced professionals, we provide round-the-clock service, ensuring prompt and reliable responses for every need. Our commitment to excellence guarantees not only timely assistance but also expert consultation that consistently exceeds customer expectations.

5 WHY LOTUS GREEN TEAM?

“SUCCESS STARTS AT THE BEGINNING”

- 1 Integrated & Sustainable Solutions** No matter the scale of your construction or renovation project, long-term success requires seamless planning, precise execution, and proactive maintenance. At Lotus Green Team, we ensure all aspects —design, implementation, and cost control are aligned with sustainability and efficiency to meet your needs today and in the future.
- 2 Professional & Health-Focused Service** Our expert contracting team, including qualified health professionals, is dedicated to delivering high-quality services in a safe and healthy environment. We prioritize industry standards to ensure the well-being of both our workers and clients throughout every project.
- 3 Innovation & Leadership** in MEP Technology With a multidisciplinary service approach and a commitment to continuous improvement, Lotus Green Team remains at the forefront of Cambodia’s mechanical, electrical, and plumbing industry. Our strong company values drive us to refine our processes, integrate cutting-edge technologies, and deliver unparalleled service.

6 NOTABLE ACHIEVEMENTS

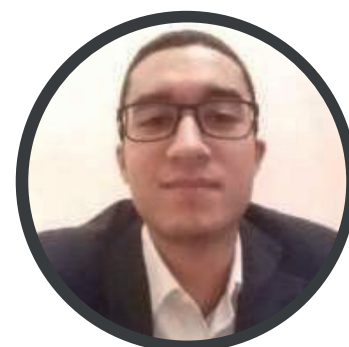

CLIENTS VOICES

Dr. Hay Ly Eang
PPM Founder

The Lotus Green Team has the capacity to work correctly, and with responsibility. Both quality and services are very good that can compete with the international company.

Mr. Mehdi El Alami

Branch of Vinci Construction
Grands Project S.A.S
MEP Manager

Good experience at Siem Reap and Phnom Penh International Airport. Lotus Green Team has been in charge of Mechanical Technical and Plumbing work. They offer their best service .
